

ThermoHITL v4 operator replay — utility restoration — step 7

Simulated operator · development evidence · authorized payload only

Multilayer network

Authorized thermodynamic view

Standardized energy	5.411
Entropy anomaly	8.122
Entropy slope	0.478
Belief disagreement	0.205
Consensus confidence	0.667
Free-energy diagnostic	-0.007

Alert, workload, and bounded response

View condition	complete thermodynamic
Reason	belief disagreement
Queue length	2
Operator workload	0.00
Operator minutes	0.0
Latest action	intervention applied

Data provenance and causal progress

View hash: 687cd96b9957aa7e0c5d...

Material/service events visible so far: 0 · evaluator-global and counterfactual fields excluded

The display is a replay of a simulated operator condition, not evidence from a human participant.
